MOTION CARRIED: 6/0/1

CORRESPONDENCE:

The Clerk read a thank you note from Carol Hoskinson of Mission Commission, Mentor United Methodist Church, expressing their gratitude for the collection of the food at the Boo Bash which assisted them in helping to provide for Lake County families during the Thanksgiving and Christmas Holidays.

ADMINISTRATIVE AND DEPARTMENT HEAD REPORTS:

Mayor and Safety Director – Mayor Rogers

Mayor Roger said there are a variety of pieces of legislation on the Agenda this evening. He said there are a few appointments and reappointments to existing boards and commissions.

In addition to that, there are requests to reappoint the Law Director, Prosecutor and City Engineer. He said he would like to point out that there are no increases with respect to their current salaries. There is also a temporary appropriation for the FY 2010, and there are no increases in wages for non-union personnel.

At the appropriate time, Mayor Rogers said he would appreciate support of the appointments. There is one new appointment to replace Kevin Swanson on the Civil Service Commission. Mayor Rogers said the gentleman he is asking to appoint, James A. Lunder, is a retired individual who was formally a firefighter within the City. Mr. Lunder, who resides on Marine Parkway, did express his interest on serving on the Civil Service Commission.

The Administration has been working on the budget, and they have been working with the department heads in finalizing their budgets. They should have this information available, if not by the end of the year, and then it would be available at the beginning of next year.

Chief Doran is present this evening, and he will be discussing the Accreditation Program.

Administrative Director – Mr. Molenaar

Mr. Molenaar said he provided a legislative summary memo to all Members of Council and would address any questions Council may have at the appropriate time.

Law Director – Mr. Lyons (no report)

City Engineer – Mr. Federico (no report)

Police Chief – Mr. Doran

Chief Doran said he is pleased and proud to report that our agency has been re-accredited for the fifth time since the Mayor instituted the process of accreditation. He received all of the paperwork pertaining to their accreditation, and there was also an article in the News Herald on their accreditation.

Council Member Rose congratulated Chief Doran on a job well done.

OLD BUSINESS:

LETTER TO PUCO REGARDING AQUA OHIO REQUEST FOR RATE INCREASE:

Council President Langbehn said all Members of Council received the draft of the proposed letter to Aqua Ohio regarding their request for a rate increase. Council Member Eva said he views it as a good letter. Council President Langbehn asked for a motion to approve the letter as drafted and to send it out to the Ohio Public Utilities Commission.

MOTION MADE BY MR. EVA, Seconded by Mr. Rose to approve and send the letter dated December 3, 2009 to the Ohio Public Utilities Commission as drafted. **ROLL CALL:** Ayes: Council Member Rose, Eva, Shirley, Connolly, Elam, Hawkins, Langbehn. Nays: None.

MOTION CARRIED: 7/0

DISCUSSION ON HEALTH CARE REFORM:

Council President Langbehn said Council Member Elam brought up the discussion of the health care reform and asked that Council continue their discussion whenever all Members of Council were present.

Council President Langbehn said he believes Mr. Elam's point was that he is opposed to what has been proposed by the House. Council Member Elam said he thinks the direction our Federal Government is heading is the wrong direction in terms of what is good for the economy, jobs, and our residents. His thought was that as a body if they could come to mutual agreement on this matter, they would then contact our Congressman and U. S. Senators giving them our position and concerns as to the direction things are going. Mr. Elam said he is making the assumption that there are things they could all agree to. He feels what is going on behind the scenes is very troubling. Council Member Elam feels that hearing from the 'grass roots' of things could have an impact.

Council Member Rose said he does not think this is appropriate forum to bring up National issues. If we are going to discuss health care, then Mr. Rose said we should be discussing Afghanistan, etc. He does not think they can, as a body, unanimously speak for all 8,200+ residents of the City. Mr. Rose said he does not think this is something that would be appropriate. He feels if you take on one National issue you have to take on all of them, and Mr. Rose does not feel this is the place to do that. Mr. Rose said he would encourage all to contact their federal legislators and voice their opinions, but he does not feel this is the place to do it.

Council Member Hawkins said we have been discussing health care reform for ten months and there is still no bill. He agrees with Mr. Rose on this matter. Mr. Hawkins feels the residents of the community do not expect them to take on issues such as national health reform and he feels it is not their responsibility to take on national issues.

Council Member Elam said that health care was not his primary focus, it was the total direction they are heading in and the effect it is having on our residents. Council Member Hawkins said the residents will get a chance to speak, and they will speak loud and clear in 2010.

Council Member Eva said he agrees with Mr. Rose. He feels that we have to pick our battles, and as a City Council this is not a battle that we need to beat.

Council Member Shirley and Council Member Connolly said they both agree with Mr. Rose.

Council Member Langbehn said that from his prospective, if Council were to put some sort of letter together or perhaps pass a resolution disagreeing where things are right now would really fall on deaf ears. He does not feel there would be a 7/0 vote on such an issue because from his reading on it this is a very partisan issue right now and it is not clear there is bi-partisan support for any health care in the House or Senate. Council President Langbehn said he would be hesitant to get something before this Council that would not have a 7/0 vote on it. He feels it would not be very effective to start with and perhaps be a little premature at this point.

Council Member Elam said he understands Members of Council position on this matter and he has thought about all of this also. He said it is playing out both nationally and statewide as a partisan issue. Mr. Elam said he was not looking at it as a partisan issue. Council Member Elam said he appreciates Council at least considering the matter and making a decision about it.

Mentor Sheetz Discussion:

Council President Langbehn said there were two articles in the News Herald recently regarding the proposal for the new Mentor Sheetz to be built on Lakeshore Blvd. All Members of Council were provided the article that was in the News Herald on December 8th. Mr. Langbehn said he would like to see Council react, if they are so inclined, to Mentor Council because that is where this matter will go next. According to the article, Mentor Planning Commission did approve the plan as presented. Mr. Langbehn said there are a lot of Mentor residents objecting to this whole idea. His personal feeling is that we do not have a lot of activity going on in that shopping center currently, and yet sometimes when you are coming from 306 down Lakeshore Blvd. you are going to be stopped before you get to Rice School, and then again at the traffic light and then again whenever you get to Andrews Road. He feels it is a real mess traffic wise in addition to other issues the Mentor residents have brought forward. Council President Langbehn said he would like to ask Members of Council their opinion on this issue. He feels this will have an impact on us locally, certainly from a traffic standpoint. Also, he does not feel this would be the best use for this particular location.

Council Member Hawkins said they also reduced the buffer. Mr. Molenaar said he contacted the City of Mentor Engineering Department and asked them if traffic studies have been performed for this and they told him "no". He said that one of the main reasons for this is that there are traffic lights already at each end of this project. The ingress/egress is actually being improved compared to what they have now. Mr. Molenaar said the big reason the traffic study is not being done is the volume of traffic that would be going into Sheetz is less than the volume of traffic should that whole shopping center be full. He said there would be less customers going into Sheetz than if the entire shopping center would be full.

Council Member Hawkins said he totally disagrees with this. If you are shopping at the shopping center for two or three hours, you would not be driving in and out. Mr. Molenaar said that if all of the stores in the shopping center were occupied there would be more cars volume wise. Mr. Hawkins said he disagrees with this. He asked if there has been an environmental impact report because gas stations are emission sources. Mr. Molenaar said the information he has given them is from the City of Mentor Engineering Dept. Mr. Molenaar said he gave them studies they actually have. Mr. Hawkins said they should send us copies of the studies since it will directly impact us.

Mayor Rogers said whenever the article was in the paper he asked Mr. Molenaar to contact the City of Mentor and get what information he could on the project so that Council would have this information available to us in case we would like to express our concerns to them or advise the City of Mentor of our position. Mayor Rogers said we do not control this. Mr. Hawkins said he does know this but it will certainly have an effect on our residents and as a Council we should be responsible and thoughtful in whether or not it is a good idea and express ourselves one way or another. Mayor Rogers said he agrees with Mr. Hawkins completely.

Council Member Eva said it is not an appropriate business for that location. Mr. Eva pointed out there is a day care behind there and there are residents surrounding the area. He feels to open a 24/7 gas station there would be totally inappropriate.

Council Member Shirley said she would personally like to see something done with that shopping center other than being an eyesore. She said she would like to see a Sheetz there personally. Ms. Shirley said she realizes that traffic will affect the area, but change is not always bad. Mr. Langbehn asked her if she did not see this as a problem traffic-wise. Ms. Shirley said she does not, and anything they do there will make more traffic, etc. Mr. Langbehn said the next question would be is having a gas station there really the best use for that location. Ms. Shirley said that is not our decision. Mr. Langbehn said we can still express our concern about it. Mr. Langbehn said this will cause a major traffic jam in the area with many potential traffic problems.

Council Member Rose said he was wondering if it were Sheets or nothing? He said he does not know of anyone else who would be interested as the property has been vacated for over two years.

Mr. Eva said if you look at the history or closed gas stations in the area, he was wondering why we would need another Sheetz whenever there is one on Reynolds Road. Mr. Rose said he is not saying it needs to be a Sheetz, but what he is saying is if it comes down to Sheetz or nothing, he cannot say he blames the City of Mentor for trying to bring something in on the north side of town.

Council Member Connolly said she believes it to be purely economics and they are not really considering the traffic problems, etc.

Mr. Hawkins said he is not contesting Mentor's right to do as it wishes with the property. He said City of Mentor can ignore our opinion on its use, but he does not believe it would hurt anything for our views to be heard. Mrs. Connolly asked if Mr. Hawkins was suggesting that we send a letter or perhaps have a representative at City of Mentor's January council meeting. Mr. Hawkins said he believes this to be the right approach.

Mr. Rose said that obviously there will be an impact to our local businesses, but it is free enterprise. Regardless of what goes in there, Mr. Rose said it will increase traffic.

Council Member Elam said it will draw business into the area which may help our businesses, and secondly it is too bad we could not annex that corner to Mentor-on-the-Lake so we could get the income tax from this.

Mr. Rose said he is concerned about the traffic but he just would want to be able to back up what they are saying. He agrees that they could send a polite letter to Mentor City Council maybe to conduct additional research.

Mayor Rogers said he has already spoken to a couple of business owners and he has indicated to them that he intends to write a letter to the City of Mentor expressing concerns similar to those that have been expressed this evening. Mayor Rogers said he will copy all Members of Council on this document once it has been prepared.

NEW BUSINESS:

Council Member Hawkins said that 10 minutes of the passing of the resolutions were consumed by voting on Suspension of the Rules with regard to resolutions. He and the Law Director have talked about this in the past. He understands the wisdom of waiving the rules with regard to ordinances because they normally affect third parties and third parties should have 30 days to express their concerns, etc. Mr. Hawkins said resolutions only apply to us. He cannot imagine why an emergency on such resolutions should be declared. Mr. Hawkins said some of these resolutions could have been scheduled 30 days ago and there would not have been a need for suspension, such as the contracts. He said he is uncomfortable with declaring an emergency on everything we do and strikes him as crisis management. Mr. Hawkins said that maybe they should add a consent agenda to the Rules of Council so a series of resolutions could be voted on at one time and if someone wants to dispute the resolution it could be amended out. He certainly understands why Ordinances need emergency measures. Mayor Rogers said his point is well taken. He said historically the first meeting in December they have always done the same thing, and certainly they could have prepared the resolutions for reappoints towards the end of November so there would be a 30 day window and they can work towards this. Mayor Rogers said there is a charter requirement on emergency measures. Mr. Lyons said that section 4.10(b) indicates that all ordinances and resolutions shall be read on three different days unless Council suspends the rules.

Whenever Mr. Langbehn asked whether or not we have to Suspend the Rules, Mr. Lyons said he indicated that we should Suspend the Rules. The question becomes whether or not they have to be passed as an emergency measure which is different as being passed and suspending the rules. All the language of the emergency measure means is that it goes into effect immediately, and no one can file a referendum against it. Mr. Lyons said that appoints and re-appoints are not subject to referendum as it is. He said it is important to follow the rules on reading on three separate occasions so if someone wants to object they can do so. He said there is a distinct difference on Suspending the Rules and whether or not it goes into effect as an emergency. Mr. Hawkins said it seems to him we do a lot of pro-forma things that take up time.

Council Member Shirley said at the light at the corner and end of Andrews Road, there is a stop line to stop way back which is where it should and needs to be in order to make a right hand turn. She said people do not stop there and one cannot make a turn in a bus. She asked Chief Doran if a sign could be placed there asking the people to stop at the line. Chief Doran said he does not know how useful signage would be in trying to correct this. Mr. Molenaar said there was an article in the News Break whenever this change was made. Mayor Rogers said that perhaps next year whenever they do the pavement marking they could place the word "stop" at that cross bar.

Council President asked Chief Doran if he has an opinion on the traffic at Lakeshore Blvd. traveling east. Chief Doran said he has trouble get through that area all of the time. Mayor Rogers said he recognizes that at certain times of the day that is a busy intersection. He intends to ask the City of Mentor to review this, and anytime you have a commercial zoning district adjacent to a residential property there will be a difference of opinion as to what should occur there. Mayor Rogers said he would rather have full buildings with people employed, but from our communities prospective, there is an impact on us which will be the traffic. He said he does not have the traffic study before him to make that determination, but he does have a plot plan which was given to him today and an overview picture which was probably done by GPS of the County which interestingly shows a traffic pattern waiting on a line of traffic waiting to turn left onto Andrews Road.
